Online Video Advertising and Email Marketing Solutions

Online Video Advertising

VMA facilitates consumers to connect with businesses by enabling websites to “come alive” with compelling video messages, leading to stronger brand relevance, response rates, conversions and revenues. People want to connect with real people not just text on a webpage. You have a few short seconds to attract the attention of visitors to your website - and Online Video does just that!

Research shows that over 80% of visitor will view a video while 52% will take action after viewing it!

Furthermore it has shown that web sites that have videos keep visitors at them longer. This may result in higher profit and more clients.

Using video on a website will make it more dynamic, exciting and entertaining.
